

MAKE ART NO HATE

Be inspired, create, speak your mind!

MAKE ART, NO HATE

Main meeting: 10-21.09.2015

Venue: Cluj-Napoca, Romania

APV: 11-12.08.2015

THE IDEA OF THE YOUTH EXCHANGE

We want to encourage young people to convey their messages to impact their community and actively participate in solving the problems that affect them.

Young Internet users are more than consumers. They have the power to influence others and thus can assume an active role in how the Internet is functioning. Hate speech is growing on the Internet because it seems like an environment of anonymity. The Internet offers seemingly endless freedom of expression and the possibilities of social interaction are extremely divers.

Young people have to be aware of the hate speech problem, in order for them to change attitudes of intolerance and to mobilize in combating this type of hate discourse -with the help of user friendly social media channels and with methods like art that have a high impact on communities.

Erasmus+

MAIN ISSUES

Make art, No hate is an international youth exchange for young people between ages of 18 and 26 which will focus on three main aspects:

1. Being creative, inspired and active
