

“Global Leaders“

Training Course

Prague (Czech Republic)

August 24 – August 30, 2016

Project description

Countries: Bulgaria, Czech Republic, Hungary, Italy, Lithuania and Poland

Dates: August 24 – August 30, 2016

Location: Prague, Czech Republic

Hosting organisation: Change it! (Czech Republic) www.change-it.cz/en

Objectives

The participants are going to analyse - how they are as leaders, which frames are strong/important for them, or in which they are weak - e.g. We are going to use this categorization: human resources frame, political frame, symbolical frame, structural frame. Participants are going to learn methods how to improve frames which they are going to be more useful in their youth work. They will also share troubles, which they as leaders had and learn from their experiences and analyse, how they maybe could solve these problems in other way.

Talent management (TM) - the participants are going to understand what is talent, especially talent management, they will understand importance of TM in connection to youth work. They will be also able to implement any activities, which are supporting “look for the right talent” between their coworkers and they will be also able to implement some of these activities into direct work with youngsters (to help them, if they are still thinking about their future - to help them, how to find their strengths and talents.)

Global aspect - the participants are going to be able to better analyse the information, which are they getting from media. We want to show them, if they want to create good leaders and motivate youngsters. They should think about social media impact (that we don't mostly critically analyse this information and we just use them without any deep thinking about

them). On concrete examples they are going to learn how can just “sharing” of these information badly impacts things around us.
